## Official Rules

1. Players must meet minimum age requirements for gambling at the participation locations and can be required to show valid proof of age to participate.
2. A player who achieves a winning pattern is responsible for calling out "Bingo" loud enough and clear enough to alert the bingo caller. If a player calls "Bingo" and the caller does not respond, it is the player's responsibility to yell "Bingo" again until heard by the caller.
3. Once the bingo caller closes the game or calls the next ball, no other bingo will be honored. A player must have the last number called for a valid bingo. Sleepers are not valid and will not be paid.
4. A bingo ball number must be called. The bingo ball on the display monitor is not part of the official game until called.
5. All wins are subject to verification. In the event a win cannot be verified it will not be eligible for any prize.
6. The game is played in the following manner, the winning pattern is a standard double and triple postage stamp pattern and played on a 3-on card face as a progressive. A player that achieves a winning pattern on or before the 12th ball call wins the progressive amount and two pairs, one on the right and one on the left will be paid \$250 each. The game continues as a standard triple postage stamp, a player that achieves a winning pattern on or before the 22nd ball call wins the progressive amount and two pairs, one on the right and one on the left will be paid \$500 each. A player that achieves a winning pattern on the 23rd ball call through the 30th ball call is given one (1) opportunity to spin the Super Win Bingo Wheel which will determine the amount of the game prize to be awarded. The prizes available for achieving a winning bingo will be based on the ball call at which the winning bingo was achieved and must correspond with the Super Win Bingo prize table. The triple progressive game ends once a bingo has been achieved within the Super Win Bingo prize table. In the event of multiple grand prize progressive winners, the grand prize will be split equally among the winners on a "split" basis. In the event of multiple winners on the triple postage stamp on the 23rd through the 30th ball call the prize will be awarded on a "no-split" basis. In the event that duplicate cards of faces are sold for the same game, all duplicates will be treated as a single card or face and prizes will be split.
7. By participating in this game, the player acknowledges and agrees that, in order to receive any game prize \$1,200 or greater, he or she must provide a valid government issued form of identification and their social security number.
8. Winners are responsible for any and all taxes.
9. Each player must have their own valid and current buy-in receipt from the cashier and must play their own card face in order to win a Game prize. Players must check their buy-in receipt before leaving the admission counter to ensure it is correct. Winners can be required to submit their buy-in receipt to claim their prize.
10. If a claimed bingo cannot be verified due to the winning card being obscured, altered, or mutilated in any way the bingo will be disqualified.
11. Any equipment malfunction or any other circumstance that alters the fair draw odds will void the game results.
12. All house rules of the participating location that do not conflict with these rules are applicable to this game.
13. By participating in this game, the player agrees that these rules are binding and all interpretations and decisions by the participation location are final. In the event of a dispute, all decisions of the participating location's gaming regulatory authority are final.

Employees and agents of the participating casino's Bingo Department, Gaming Arts, LLC, or any promotional companies involved with the Game, and immediate family members of the same, shall be ineligible to participate in the Game and shall be ineligible for any prizes covered herein.
